

Animal Solidarity

**We should stop animal abuse,
because it is no use.**

**We are ruining their homes,
because we are on our phones.**

**Cows and pigs are getting killed,
while our industry is getting built.**

**In second of our blink,
Species are getting extinct.**

**For the animal solidarity,
you should join our charity.**

ANIMAL SHELTERS

An animal shelter or pound is a place where stray, lost, abandoned or surrendered animals – mostly dogs and cats – are housed. The word "pound" has its origins in the animal pounds of agricultural communities, where stray livestock would be penned or impounded until they were claimed by their owners.

While no-kill shelters exist, it is sometimes policy to euthanize animals that are not claimed quickly enough by a previous or new owner.

An animal in a shelter has four outcomes:

- return to owner,
- adoption,
- transfer to another shelter or rescue facility,
- or euthanasia

Many shelter policies allow individuals to bring in animals to the shelter, often called owner surrender, or relinquishing an animal. An open admission shelter will accept any animal regardless of reason, and is usually a municipal-run shelter or a private shelter with a contract to operate for a municipality.

You can also help animals on your own by doing these:

1. Educate your friends and family. ...
2. Ask for birthday donations. ...
3. Raise money for animals. ...
4. Volunteer at your local animal shelter. ...
5. Adopt animals from shelters. ...
6. Set up a donation drive. ...
7. Foster an animal. ...
8. Speak up.

Animals that get in those shelters are well taken care of. They have food, water and even a place to sleep if they were caught on the side of the road.

A POEM ABOUT ANIMALS

Animals are in pain,
have we all gone insane?
A lot of species will soon be extinct,
I need you all to stop and think.

How will we save the animals,
how did we even let this go so far?
We think we're the superior mammals,
this is really bizarre.

Millions of them are killed each year,
cows, sheep, chickens and deer.
But what can we do?
The change lays in you too!

The solution for this animal killing institution,
is to treat an animals death like it's humans.
Animals lives matter,
let's make it better.

The Monkey Uprising

It was year 2050 when human race was on its peak. They controlled the majority of all power sources and they had complete control over earth. They enslaved, slaughtered and murdered majority of all animals but little did they know that through the next hundreds of years the average iq of an ape would rise to 160 points. They started developing technology never seen before. They started taking human land by force and after a while they took over the majority of all big cities. They enslaved humans and made them experience what they were previously doing to animals. Now apes control earth and animals live peacefully.

We are one of the last free humans left and we are living deep in the forest they are looking for us but currently we are still safe. We are sending this message in hope of finding other free humans and forming an alliance and taking back our planet.

There is no excuse for animal abuse!

There is no excuse for animal abuse
Stop turning a blind eye to animal cruelty
Evolve: End violence against animals
They have feelings too, you know?

Only a bully and a coward would hurt an innocent animal
Don't treat animals as animals, treat them as living beings.
That's what they are.

Why test cosmetics on some poor animal who didn't do anything?
If you want to test a product why don't you test it on yourself?

Auschwitz begins whenever someone looks at a slaughterhouse and
thinks:
They are just animals.

When a man wants to murder a tiger, he calls it sport,
When a tiger wants to murder a man, the man calls it murder.

When it comes to being able to feel pain, hunger, thirst, what is a
difference between a rat a pig a dog and a boy?
